LEAK NEWS

Your Source for Leak Detection & Repair Solutions

We are thrilled to announce the launch of "Leak News," an exciting newsletter brought to you by LeakTronics, your trusted partner in the world of swimming pool and plumbing leak detection and repair solutions. Dive into a world of invaluable information and stay ahead of the curve with our cutting-edge insights, new product features, demonstration videos, industry updates, tradeshow schedule, customer highlights and so much more.

LeakTronics News

Contractor Highlight

Chase Plumbing is a family-owned plumbing business that provides high-quality plumbing, drain cleaning, hydro scrubbing, emergency plumbing, and plumbing inspection services for commercial and residential properties in Willamette Valley and surrounding areas in Oregon. Their experts can efficiently handle custom plumbing work of any size. Chase Plumbing uses our [plumbing leak detection equipment](#) and has completed the [leak detection training course](#). Check out [chaseplumbingnow.com](#) to learn more about building a successful business.

2024 Tradeshow

Mark your calendars! The LeakTronics team will be attending the [PHCC Flow Expo](#) on Saturday, March 9, 2024, at the Los Angeles County Fairplex in Pomona, California.

You will get to meet our Founder and CEO Darren Merlob to get your questions answered and check out our newest plumbing leak detection product, the [Plumbers LeakStick Kit](#) and the [Plumbers LeakStick Add-On](#).

For the complete 2023-2024 tradeshow schedule, please check out our [Events](#) page on the [website](#).

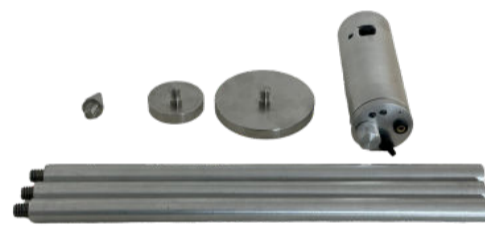

Have you seen the must-have leak detection tool for every plumber's truck?

Buy Now!

A must-have for every plumber, this kit features powerful yet simple-to-use technology that allows any plumber to conduct slab leak detections and facilitate pipe repair services. The components included in this kit allow plumbers to locate hidden pipes anywhere on a commercial or residential property. They also allow contractors to listen for any leaks wherever they occur under slabs.

The kit includes the LeakStick with a probe tip and extensions, listening disks, a [Thermal Imaging Camera](#), rig-to-hose bib adapters, an air induction rig, headphones, a USB cable and charger, and more. Just like our other full [Plumbers Leak Detection Kit](#), the [Plumbers LeakStick Kit](#) is a must-have for each of your business trucks when going to any job site.
